Red Mark Textures are specially formulated for those who are looking for something different than the traditional texture finishes. Red Mark Textures are the result of an in-depth research that allowed the company to use all new technologies and modern infrastructure to produce world class, highly rated product that reposes the charm of elegant and classic texture finishes, whilst eliminating the problems of hygiene and maintenance. Red Mark Textures has elaborated a rich and classy selection of varied innovative texture designs and styles, with which it is possible to achieve infinite variations according to one's choice and requirements. Red Mark textures is a product of modern and innovative conception that meets the most demanding technical requirements, whilst at the same time conserving the beauty and longevity of the textured surface. Red Mark textures are totally non-toxic, free of poisonous solvents & odourless and gives the tenacious finish of high technical and aesthetic value.

The natural composition of the product guarantees the maximum repellancy to water and shield against the extreme atmospheric conditions and thereby gives the long lasting protection against the development of fungus and algae, whilst maintaining the richness of the product.

Range of Wall Finishes

é Super Fine provides an orange peel effect with sponge, wool or stipple rollers in variety of elegant shades.

é Rustic offers high build textures in varied directions i.e. vertical, circular, diagonal and criss cross finishes.

é Super Spray is a most durable spray finish which is available in Flatcut and Dews textures finishes. It effectively bridges hairline cracks.

Redmark Pearl provides a smooth stipple finish. It is a highly durable coating with smoothness of an Acrylic Emulsion.

Uncomparable Features

Based on high performance Acrylics with silicones.

Varied innovative and classy designs & styles of International Quality.

International standard systems. Ensures Quality advantage.

Excellent resistance of extreme weather & water repellent.

Breathes away trapped moisture, does not chalk or flake.

Excellent adhesion & flexibility, takes on thermal expansion & contraction.

Algae & fungus resistance. Biocides & fungicides integrates to release with time.

Bridges hairline cracks, excellent bonding with the substrate.

Washable, provides fresh & rich painted look for years.

Prolongs life of the surface, provides a polymer concrete matrix.

Provides insulation properties, radiates back the solar rays.

Rich international Look with affordable prices.

Negligible maintenance - longevity of the product is enhanced.

Fire retardant & UV resistant.
